### Abstract

In 1991, based on proposal of Council of Persian Language Expansion in North America and assistance of Permanent Representation of Iran in United Nation Organization and the Research and Teaching Planning Organization, this project "Let's learn Persian" was put into force in order to teach Persian the Iranians to residing abroad.

The Packages of (Let's learn Persian) in 11 volumes have been prepared in three levels: primitive, intermediate and advanced; containing student books, working books and guidance for teachers, accompanied with CDs and cassettes.

The core content of the text books mostly introduces culture, civilization, Islamic art of Iran, anthropology and customs, handicrafts and arts, Iranian celebrities and etc.

This package, the first in its own kind in Iran, has been compiled on the basis of modern methods of teaching second language such as communicative, creative revelation and community methods. Omitting the middle language, teaching speaking and writing skills at the same time, classification of courses based on syllabus, testing, various exercises, teaching various language occasions, an effective teacher's guide for both teacher and family audio cassetts and CDs are among the major advantages of this package.
