

# First Laureate Research & Development

◆ **Project title:** Sina-class Naval vessel

◆ **Representative:** Farhad Amiri(M.Sc.)

## **Abstract:**

The Design and manufacturing of Sina-class naval vessel was started in the year 2000 and was named p224 in the memory of the Braveries of the Islamic Republic Paykan Navy-ship in Persian Gulf waters in 1981. This vessel was launched in Caspian Sea waters and has increased national defense capabilities in the region. This modern vessel was fully built and fitted using private and defense industries capabilities along with the help of universities and research institutes, bringing the costs down to quarter of the price of its foreign rivals.
